

Framing:

We use Australian made Tasmanian Oak wood for our standard framings with white matt inserts

Our standard range profile:

Tasmanian Oak – Profile std – 30mm(w) x 20mm(h) ,

Colour – Black, White, Brown and Natural

Our optional range profile upon requests only:

Tasmanian Oak – Profile chunky – 30mm(w) x 42mm(h)

Colour – Chalk, Wenge and Natural

Acrylic Face:

3mm Shikolite acrylic in the frame instead of glass. Optically clear, safe and easy to transport.

It is lighter in weight and more impact resistant than glass, making it safer and easier for transportation.

Hanging System:

Plastic coated stainless steel framing wire tied onto a D-ring

Optional upon request only:

We can also offer additional timber styles that gives an older pine wood look.

The colour range is rustic light and dark brown. You can opt for glass face if you prefer rather than acrylic face.

Customised frames are expertly made from durable, high-quality timber.
